

Francesco Moca

Senior Consultant & Full-Stack Developer · Milan, Italy

francesco.moca@gmail.com github.com/franzmoca linkedin.com/in/francesco-moca francescomoca.ml

SUMMARY

Senior consultant and full-stack developer with 6+ years of experience delivering enterprise software and blockchain platforms. Contributed to 13+ projects across financial services, energy, insurance, supply chain, payments, and digital entertainment, combining hands-on development with architecture, client-facing consulting, and team coordination.

EXPERIENCE

Blockchain Reply

Milan, Italy

Senior Consultant

Mar 2023 - Present

Consultant

Mar 2020 - Mar 2023

- Led teams of 3-5 developers delivering multi-component digital-asset platforms built on microservice-based backends and multiple frontend applications; the largest served up to 1,000 customers and supported more than €500k in transaction value.
- Developed backend services and integration layers in **Java / Spring Boot**, **Go**, and **Python**, and frontend applications in **Vue.js**, **React**, and **Next.js**.
- Built smart contracts and blockchain components for tokenization, asset lifecycle management, custody-integrated workflows, and interoperability across public and permissioned networks.
- Designed cloud infrastructure and automated delivery workflows across **AWS**, **Oracle Cloud**, and **Azure** using Kubernetes, Terraform, and CI/CD pipelines.
- Implemented an internal agentic pipeline to assist pull request reviews through automated repository analysis and structured feedback.
- Prepared technical analyses and architecture documentation, facilitated client workshops, and supported application and infrastructure migrations.
- Mentored 2-3 junior developers and collaborated on several pre-sales proposals, defining technical solutions, scope, and delivery estimates.

Freelance Developer

Sep 2016 - Feb 2020

Freelance Full-Stack / Mobile Developer · Remote

Delivered client projects alongside university studies, including an ERC-721 system with a React web dashboard and React Native mobile app for product authenticity, and a cross-platform board game companion app shipped on the iOS App Store and Google Play.

SKILLS

Languages Java · Go · Python · TypeScript · JavaScript · Solidity · PyTeal

Applications Spring Boot · Vue.js · React · Next.js · React Native · Kotlin Multiplatform · Node.js

Blockchain Ethereum / EVM · Algorand · Hyperledger Fabric · Hyperledger Besu · R3 Corda · Polygon · Gnosis Safe · Fireblocks

Cloud & delivery AWS · Oracle Cloud · Azure · Kubernetes · Terraform · CloudFormation · Docker · Jenkins · GitLab CI · GitHub Actions

Developer tooling Coding agents · Agentic code review · LLM-assisted development · Specification-driven workflows

EDUCATION

Master's Degree in Computer Science (Software Techniques)

2016 - 2019

University of Bologna · **110/110 cum laude**

Thesis: *Pig: A State Channel Game on Ethereum*

Bachelor's Degree in Computer Science

2013 - 2016

University of Perugia · **105/110**

Thesis: *Blockchain: gestione di Big Data*
